## Minnesota Pollution Control Agency

June 29, 1984

RECEIVED  
JUL 5 1984

Mr. Donald J. Thimsen  
Manager, Environmental Engineering  
Engineering Policy  
General Mills, Incorporated  
P.O. Box 1113  
Minneapolis, Minnesota 55440

**Remedial Response  
Section II**

Dear Mr. Thimsen:

Enclosed for your review, and hopefully General Mill's signature, is a General Mills Order (Order) and Remedial Action Plan (RAP) that the Minnesota Pollution Control Agency (MPCA) staff has developed as a result of our meeting of June 14, 1984.

The changes in this Order from earlier drafts are that; (1) the U.S. Environmental Protection Agency (EPA) is not a party to this agreement and (2) we have reinstated and slightly expanded the section (1.7) of the RAP which requires a remedial investigation of the St. Peter aquifer.

Our Agency Board will be asked by the MPCA staff to either authorize the General Mills executed order or to issue a Request for Response Action (RFRA) for the General Mills/Henkel Corporation Site at its July 24, 1984 Board meeting.

If General Mills decides to at this time sign the Order, please notify me by July 6, 1984. Otherwise we will draft a RFRA.

As has been previously discussed with you, a RFRA is a standard part of the Minnesota Superfund program. It in no way implies noncooperation by General Mills nor denigrates your efforts to date.
